Janssen companies have also made financial donations to independent charitable foundations that assist patients who are underinsured and in financial need with treatment-related expenses. In keeping with our donor agreements and applicable regulatory guidance, we will only disclose aggregate data on our charitable giving and do not publicize information on donations to specific foundations and disease states. In 2022, we contributed approximately \$238 million [total across all Janssen companies] in donations to independent charitable foundations, enabling them to provide assistance with medication-related copays and other medical assistance to patients.

*These grants were made by the Janssen Pharmaceutical Companies Contribution Fund at the Johnson & Johnson Foundation, which was funded with a one million dollar donation provided by the Janssen Pharmaceutical Companies of Johnson & Johnson on 10/3/2022.
